Lonely Planet selects Manitoba 8th in the world!

Best in Travel 2019 – Top 10 Regions

According to Lonely Planet:

"Manitoba is, quite literally,
at the centre of everything.
It's the geographical middle of Canada
and a crucial point of encounter;
the ancient Aboriginal people would
trade their wares at what is now
Winnipeg's downtown core.
The capital city has retained its
multicultural flavour."

Following lunch in The Met's Grand Hall, Greg Agnew of Heritage Winnipeg will share with us the storied history of this "Movie Palace" and the path to the restoration of its former grandeur.
